Subject: RE: Bradford Island - EPA Team and agenda for meeting

---

Thank you for the information Helen. Can you send me the draft agenda that Kira discussed with Liza so I am using the current version.

Thanks,  
Chris

**Subject:** [Non-DoD Source] Bradford Island - EPA Team and agenda for meeting

Hi, Chris.

First, about the kick-off meeting. EPA believes it is critically important to discuss high level issues including our respective roles while the FFA is being negotiated and involvement of the States and Tribe(s) in RI/FS process. That is why we sent the suggested agenda, so it was great to hear this morning that your team will provide comments on it soon. We do not see the value of a site visit including senior managers if we don't also begin discussing these key issues. EPA is ready to meet. I just sent a message requesting our core team members to confirm they are still available that day. I should be able to confirm early next week, when Richard Mednick is back (he is out today). Calvin Terada is no longer available on June 23, but Kira Lynch is available and she can speak for the Division.

On the FFA negotiations, EPA's negotiating team includes Richard Mednick, Rich Francis and myself. Richard Mednick is lead for the legal language of the agreement, while Rich and I are the leads for the Site Management Plan. We will brief up our management chain as needed. The final agreement will be signed by Casey Sixkiller, the Regional Administrator of EPA Region 10.

We aren't going to have a one-to-one alignment between our teams, because EPA has delegated CERCLA authorities down the regional level and because we simply aren't as large as USACE. I've added the equivalent EPA team members in green below.

Senior Executive Review Group:

Beth Coffey (NWD) - SES

Calvin Terada – SES. Division Director, Superfund and Emergency Management Division, EPA Region 10

Executive Leadership Team:

Liza Wells (NWP) - Deputy District Engineer

Kym Anderson (NWP) - Operations Division Chief

Kira Lynch – Branch Chief, Remedial Cleanup Branch; Superfund and Emergency Management Division, EPA Region 10

Management Leadership Team:

Eric Stricklin (NWP) - PM Branch Chief

Julie Wroble – Section Chief, Site Cleanup Section 2, Remedial Cleanup Branch

Project Leadership Team:

Chris Budai (NWP) - Project Manager

Helen Bottcher – Remedial Project Manager

Rich Francis – Remedial Project Manager

Richard Mednick – Project Attorney

For both the FFA negotiations and managing the project moving forward, EPA's regional team will brief and seek input from other staff and managers in our regional and **headquarters** offices. Involvement will depend on the topic(s) at issue and any pending decisions or approvals needed. These officials could include but are not limited to:

Alycia Guyette --Tribal Specialist, Superfund and Emergency Response Division

Adam Baron – Branch Chief, Tribal Trust and Assistance Unit, EPA Region 10

Lucas DuSablón – Tribal Specialist for Yakama Nation, Umatilla, Nez Perce Tribes

Kris Carre – Tribal Specialist for Grande Ronde, Warm Springs, Siletz Tribes

Wenona Wilson – Senior Tribal Policy Advisor, Office of the Regional Administrator, Region 10

Dean Ingemansen – Branch Chief, Office of Regional Counsel

Beverly Li – Regional Counsel, EPA Region 10

Lucy Edmondson – Director, Washington Operations Office, EPA Region 10 (Lacey, WA)

Tony Barber – Director, Oregon Operations Office, EPA Region 10 (Portland, OR)

Greg Gervais -- Director, Federal Facilities Restoration and Reuse Office; Office of Land and Emergency Management, EPA Headquarters

Monica McEaddy – Environmental Engineer, Federal Facilities Restoration and Reuse Office

Kathryn Caballero – Director, Federal Facilities Enforcement Office; Office of Enforcement and Environmental Compliance, EPA Headquarters

Sally Dalzell – Attorney Advisor, Federal Facilities Enforcement Office
